LIBRARY A225 Ag82D

199477

FOREWORD

This Directory of State Departments of Agriculture functions, services and Federal-State agricultural programs is an elaboation of two charts prepared in 1957. The information, in most instances, is current to June 30, 1961.

Part I indicates the type of governing body and the extent of its authority, shown in parentheses, for each State. The method of selecting the Commissioner, Director or Secretary of the State Department of Agriculture is also indicated. Services performed are listed by major function. The major organizational unit that administers each service is entered in the "Administered By" column. Those functions preceded by an asterisk (*) are programs that are administered and/or financed jointly by the U. S. Department of Agriculture and the State Departments of Agriculture.

Following the list of functions, a section appears which shows the basic services provided to Farmer Cooperative Associations by State Agencies. This item has been appended only for those States where State law authorizes or requires the State Departments of Agriculture to work with or assist farmers in their cooperative association efforts.

Part II of this directory is an alphabetical listing of the functions performed by one or more States. The name of each State providing a certain functional service is listed thereunder.

We would appreciate knowing about changes in individual State programs or services as they occur so that this directory can be kept up to date. Address all correspondence regarding the directory to Byron G. Allen, Assistant to the Secretary, U. S. Department of Agriculture, Washington 25, D. C.

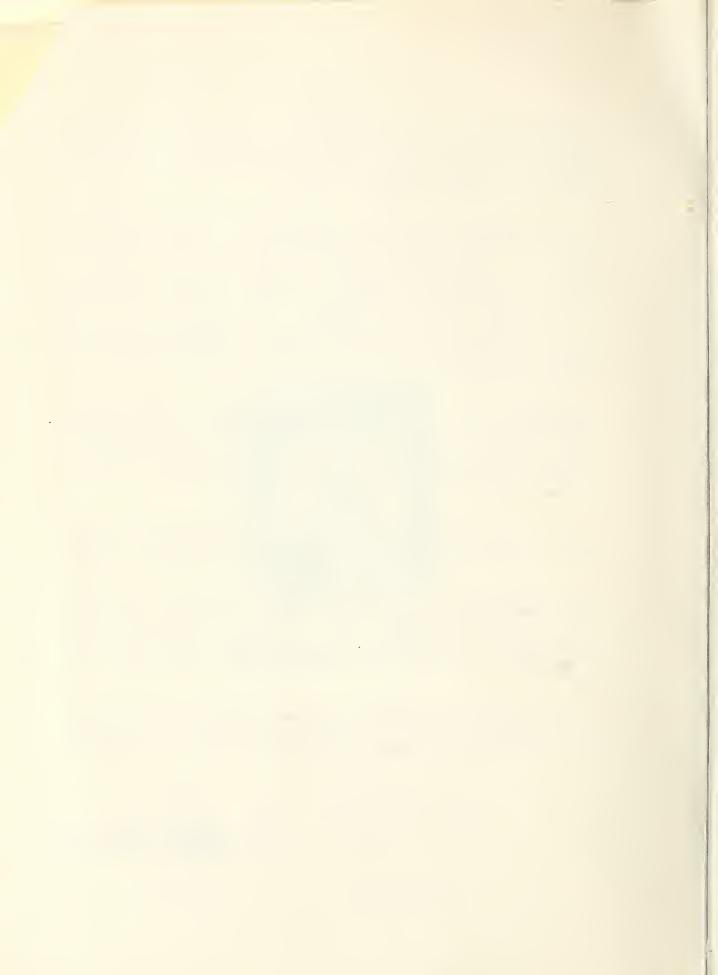

This directory is provided for you by the U. S. Department of Agriculture as further evidence of our desire to constantly furnish the agricultural community the most current information.

U. S. DEPT. OF AGRICULTURE ATIONAL AGRICULTURAL LIBRARY
